

# LRS Small Business Tech Services is your one-stop IT shop.

**You concentrate on your business, we make sure your IT investment helps your business grow.**

**LRS® Small Business Tech Services** provides managed services and technical support for businesses and non-profits throughout central Illinois. Our experienced IT consultants provide preventative maintenance to ensure computer systems operate at peak performance. In cases of computer emergencies, they can get you back on your feet by assisting with everything from disaster recovery situations involving email and file systems to resolving server crashes and Microsoft® Exchange issues.

**You need someone to manage your technology for your small business.**

Our IT team provides all the expertise you need, *when you need it.*

## **Ready when you need us!**

LRS Small Business Tech Services provides technical resources, emergency computer repair service, and customer support for network problems and server issues to small businesses located within a 60-mile radius of Springfield, including Decatur, Jacksonville, Bloomington, Normal, Lincoln, and Litchfield.
